Charles Delman

Persistently Foliar Knots

See slides on his website
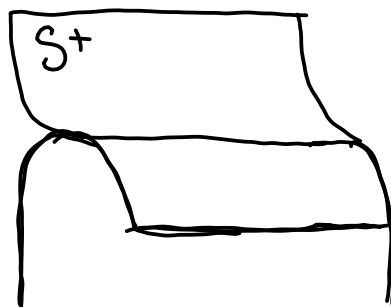

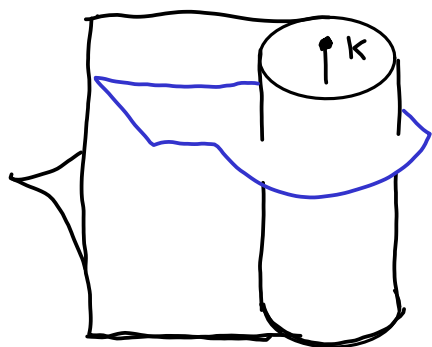

Defn: Foliar if admits a CTF

Persistently foliar - all slopes realized

Kazez·Roberts?

L-space: Minimal HF homology, generalize
lens spaces

Foliar $\Rightarrow$ not L-Space. Does HFH detect
foliations?

Can define "L-Space Knots" and similar conjecture

Some choices for local smoothing in spine
decomp

See also "stacked chairs"

Simplest non L-Space knot P(-2,5,5)
